EXPERIENCE WORK

June 2023 - December 2023 (~7 months)
Economist | «Melitopol Dairy Plant LLC»

- Developed R-based product cost system covering procurement, composition, salaries, logistics, utilities, and depreciation
- Built SQLite reporting system consolidating data from multiple departments and 1C
- Automated sales analytics and visualization in R with dynamic reporting
- Implemented historical tracking of inventory and sales in monetary terms
- Conducted competitor and store location analysis to identify sales patterns and preferences

November 2020 - October 2022 (~2 yers)
Risk Management Specialist | «Forward Bank LLC»

- Automated monthly risk reports (sales, approvals, defaults) migrating processes from Excel to R
- Developed automated client verification using blacklists, BKI/PTI databases, and financial checks
- Created validation scripts translating management business rules into automated checks
- Designed new risk metrics with department leadership and integrated them into workflow
- Migrated most Excel workflows to R + SQL, achieving full automation

2016 — 2018 (~2 yers)
Tech Specialist | «Band»

- Managed 10 virtual machines (Windows / VirtualBox) with VPN access
- Migrated VMs to Linux on Google Cloud Platform, reducing costs and increasing capacity
- Configured lightweight software (e.g., Midori) for low-RAM environments
- Provided remote technical support for Windows and Linux users
